+91 96504 93259

11 Years of design experience in total.

**Senior UX Designer
Salesforce Inc**
Bengaluru
March 2024 - Present

Salesforce Data Cloud

Led the design of the Search Index Configuration for AI Agents, shaping multiple iterations and exploring future possibilities to deliver a more advanced and flexible experience. Worked on integrating unstructured data connectors like Slack, AWS, Google Drive, and Confluence, bringing conversations, documents, and activity data into Data Cloud to make it searchable and usable for insights and operations.

Beyond product design, focused on improving team well-being and culture, & designed Agentic tools to enhance collaboration between designers, Content Exp, Accessibility, and Research teams.

**Senior UX Designer
SAP Labs**
Bengaluru
May 2022 - Mar 2024

SAP Concur Application

Designed the Funds and Grants Integration configuration experience. Initiated an overhaul of admin work areas to support intent-based configuration. Connected with multiple designers to align existing efforts and consolidate ideas.

**Senior UX Designer
Oracle Design**
Bengaluru
July 2016 - April 2022

Oracle Marketing Cloud Products - Responsys and Unity

Designed data connections, analytics, and admin experiences for Unity. Identified UX issues in existing OMC products, analyzed competitor features, and collaborated across teams to deliver lean MVPs with rapid iterations.

Oracle Cloud Applications - Procurement Mobile Experience , Network Visualisation tool for Supply Planning and other Patterns

Audited existing experiences, uncovered key UX challenges, and developed archetypes. Designed cross-platform, reusable Patterns for Components Library, defined workflows, and delivered detailed specs for implementation.

**UX Designer
Cognizant**
Chennai
July 2014 - July 2016

Designed end-to-end for enterprise applications across retail, finance, and healthcare domains for clients including Walmart, UnitedHealth Group, and Farmers Insurance. Gathered requirements through stakeholder discussions, crafted scenarios and workflows, and served as the sole designer—bridging communication between clients and developers.

Education

**Master of Design
IIT Delhi**
June 2012 - June 2014

**Bachelor of
Architecture
CET Bhubaneswar**
June 2006 - June 2011
